Subject: FW: Volpe Job Opportunity: Direct Hire – General Engineer, GS-0801-07-09
Date: Monday, October 17, 2022 11:08:52 AM

Dear Colleagues,

The USDOT/VOLPE NATIONAL TRANSPORTATION SYSTEMS CENTER is seeking entry level General Engineers. This is a public notice for a U.S. DOT General Engineering (0801) positions open to U.S. Citizens. Multiple positions may be filled for GS-07 and GS-09 across DOT to support the Infrastructure Investment and Jobs Act 2021.

The ideal candidate is an entry level engineer with a degree in professional engineering and has a desire to manage complex transportation-related projects. Preferred engineering fields include general, civil, mechanical, environmental, computer, software, electronics, electrical, systems, architectural, geomatics, construction/industrial, and engineering management. You must have superb analytical, communications, leadership, and problem-solving skills and be able to excel in a fast-paced environment.

As a General Engineer you will join a DOT team comprised of transportation professionals and work on various transportation-related engineering assessments and design studies which are intended to evaluate and improve the safety and performance of all modes of transportation systems and infrastructure. This Direct Hire Public Notice will be used to build a list/inventory of applicants that may be referred as vacancies become available.

The studies and work efforts in these engineering positions are intended to provide opportunity to increase knowledge and professional growth. Complexity of duties increases with experience and grade level.
