---

The Department of Global Research is looking for 2 Mechanical Engineers to join our team.

One position is within the frame of the EU project HARIA, focused on developing new robotic technologies to assist people with Stroke and Spinal Cord Injury. The second position is a fixed position as a mechanical engineer in the group working on various topics on Prosthetic and Orthotic devices.

You can find more information and apply in our website

[Research Engineer \(ottobock.com\)](#)

[Research Engineer \(d/w/m\) \(ottobock.com\)](#)

Sincerely,

**Dr.-Ing. Jose Gonzalez-Vargas**  
Research and Innovation Manager  
Global Research & Innovation Hub
